Information

This Synthetic Rattan Furniture collection is made from top quality, high density polyethylene, expertly woven over a sturdy, yet lightweight, aluminium frame. The Synthetic Rattan is extremely strong and durable enabling it to be left outside all year round, through all weather conditions. Synthetic Rattan is lightweight, environmentally friendly, rust resistant, tear proof, colour fast and resistant to UV light, chemicals and sun tan lotion. All pieces include removable cushions filled with high density foam.

The flat weave of the Synthetic Rattan is soft to the touch making the furniture aesthetically pleasing to the eye and comfortable, even without a cushion! Each frame of the furniture is painted with a powder coating, which ensure it is fully protected against corrosion and rust. The frame becomes virtually invisible once it has been woven over. The all weather Synthetic Rattan furniture will enhance any conservatory, terrace, patio, garden or pool deck area and will look at place when used in an indoor setting as well.
